

A heatmap showing the relationship between Cause (Y-axis, 0 to 35) and Effect (X-axis, 0 to 35). The color scale ranges from 0.2 (dark purple) to 0.8 (yellow). The plot shows a strong diagonal relationship, with high values (yellow/orange) concentrated along the diagonal and lower values (dark purple) elsewhere. There are also some off-diagonal clusters of higher values, particularly in the upper right quadrant.
